

Quality Policy - Issue 14 (01-2019)

Quality Policy Statement

It is the policy of CR Civil Engineering Ltd to deliver to its clients a standard of service which meets legal, customer and other obligations in accordance with the requirements of ISO 9001:2015, the National Highways Sector Scheme 16 for the laying of asphalt mixes, the National Highway Sector Scheme 30 for the Installation, Maintenance and Repair of Modular Paving and the National Highway Sector Scheme 2A Supply, Installation and Repair of Fences for Infrastructure Works.

To achieve this consistently requires the active commitment of all members of the organisation in a process of continuous improvement.

It also demands the establishment and maintenance of an Integrated Management System, which ensures a structured and measured approach to the continual improvement of quality.

CR Civil Engineering Ltd has established and maintains an effective and efficient Integrated Management System that incorporates and is integrated with other business processes including health, safety and the environment.

The Company ensures that all employees understand the Company's objectives through an ongoing programme of communication and training. The Company recognises that the quality of its goods and services and its good name depend on the everyday actions of those working for or on behalf of the Company.

The implementation of this policy will be monitored throughout the Company's activities to ensure compliance with its objectives and commitment to quality assurance and customer confidence. The policy will be formally reviewed on an annual basis.

I am committed to ensuring that everyone in my organisation understands their part in meeting these requirements. I hold all staff responsible for adhering to the content of the system and for its continuing progress for the future.

David Vyron Carl Roberts
Managing Director
